

LEWISTON ULTRA EVENTS & EXTREME ENVIRONMENTAL CONDITIONS

(UPDATED FEBRUARY 2024)

The BC Backyard Ultra is hosted at the Sicamous Public Beach Park in Sicamous, British Columbia and supports the Canadian Championship Series & Big's Backyard World Championship.

Moose Mountain Trail Races is a 16KM, 29KM, 42KM & 50KM solo mountain trail race event in the Kananaskis Country park system, Alberta.

Note: The Lewiston Ultra Race Director & volunteers are not professionals in this subject and are interpreting available resources to mitigate these situations.

Immediate dangers will result in the suspension of the race for a predetermined period of time (review situation hourly). This may result in shortening, rerouting or termination of the race.

- Start of the race may be postponed for a few hours
- After the start, participants may be held at aid stations and not allowed to continue during suspension
- Before or during the race, the course may be modified (lightning, tornado, fire, animals, police closure, etc)

Extreme environmental conditions must be monitored by each participant. **Participants will be responsible to understand their tolerance levels for any situation** (heat, cold, air quality, hail, insects, plant allergens, pollen, etc).

We recommend that all participants discuss this with their health care professional(s). The race will only be suspended due to immediate dangers. The nature of a trail race and logistics will limit the ability of Race Director & volunteers to inform participants of environmental conditions and each racer will be responsible to monitor the situation.

- Racers with cardio and/or vascular conditions need to be familiar with common and extreme environmental conditions for Shuswap British Columbia and/or Kananaskis Alberta and discuss these situations with their health care professional(s)
- Aid station volunteers do not have the ability to ascertain a racer's medical condition – participants can request emergency services for assistance

Long term exposure issues – we do not know the impact of extended exposure to heat, airborne pollutants, allergens, sun radiation, pollen, wasp stings, etc. it is the responsibility of every participant to know their personal medical situation ability to continue this race.

British Columbia Resources for participants:

BC Air Quality: <https://www2.gov.bc.ca/gov/content/environment/air-land-water/air>

BC Wildfire Monitor: <https://www2.gov.bc.ca/gov/content/safety/wildfire-status>

Alberta Resources for participants:

AB Air Quality: https://weather.gc.ca/airquality/pages/provincial_summary/ab_e.html

AB Wildfire Monitor: <https://wildfire.alberta.ca/>

**If any participant is concerned about environmental conditions, please email info@thelewistonultra.com*
